

Security drawers with time delay

RSH 2000 KSK

Robur introduced the Time Delay Drawer Pedestal in Northern Europe more than forty years ago. Since then, almost one hundred thousands units have been installed. Many different models have been developed at customers' request through the years.

Modern design painted in silver metallic.

The unit is equipped with Robur's unique pincode lock, which is integrated into the construction. From the keyboard individual codes and time delays can easily be programmed for each drawer.

The unit has a keylock switch which activates the pincode-lock.

Each unit is connected to the mains 240 A.C. by a transformer.

Operating Voltage 12 A.C. Maximum power use is 1,6A.

A backup battery is available on request.

The unit is prepared for anchoring with two holes at the bottom. (Bolts are not included).
